

INDICATER DNA

What we do

We are a technology company with great online software that helps hospitality organisations and their staff to manage their operations more efficiently and profitably.

Our range of bite-sized modules and tools provide control and visibility of all the key processes in these modules:

- Book Keeping & Profit Manager
- CRM and e-Bulletins
- Stock, Recipe & Purchasing Manager
- Employment & HR Manager
- Communications Company Intranet
- Hospitality Ordering
- Audit Tools

Where we do it

We are the market leader in contract catering and a growing presence in restaurants, pubs, hotels, leisure, hospitals and school catering.

Our core values

Simple to use, cost effective, offering fanatical support, as well as:

- Problem solving approach
- Can do attitude
- Innovative and leading edge
- Constantly investing in product development
- Automation only for good reason

Client benefits

ROI is immediate, through:

- Saving time, reducing costs and improving efficiency
- Making IndiCater work with a clients existing applications
- Being customisable and easy to configure
- Being scalable from 1 to 10000 + outlets
- We can import data from any epos system
- We can export data to any accounting or payroll application
